

# Connect our patients to free in-home support!

Welcome Baby gives **expecting families** one-on-one education and resources prenatally and after their baby is born.

It's all FREE for people delivering at **Emanate Health Queen of the Valley Hospital** – regardless of income, immigration status, or insurance coverage.

## Welcome Baby helps patients:

- Get **health coverage** and **keep appointments** with OB and pediatric providers
- Access **public benefits** like WIC, CalFresh, and CalWORKs
- Achieve **breastfeeding goals**, with personal lactation support
- Identify perinatal mood disorders and **connect with mental health services**
- Receive **early intervention services** for babies with developmental delays
- Learn about **bonding**, positive parenting, and home safety

# Welcome Baby Gets Results

Last year\* over 16,000 families in L.A. County benefited from the free Welcome Baby program. Here's a look at the outcomes.

\*FY 2023-2024

**16,387**  
families served

**29,990**  
visits completed

**10,192**  
successful referrals to  
community services

**6,045** families completed  
the program

Families who enroll prenatally are more likely to graduate from the program than those who enroll postpartum.

## Program Impact

Welcome Baby graduates have been shown to have:

Improved maternal and child health

More positive parenting and safer homes

Better cognitive and social development in children

Improved mental health

**4.88 out of 5 stars**

Welcome Baby clients agree:  
"My Parent Coach helped me build my confidence as a parent."

**99%** of families received safe-sleep education by 2 months postpartum

## Women enrolled in Welcome Baby have greater continuity of care

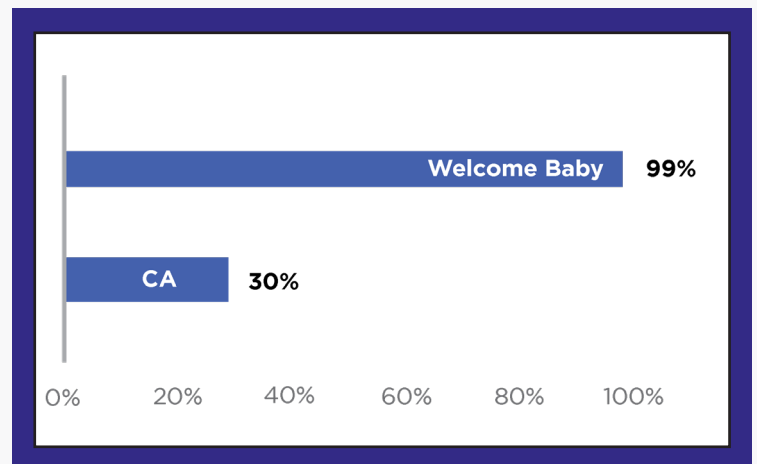

**87%**

of mothers attended their 6-week postpartum checkup

**99%**

of mothers were screened for depression within 3 months postpartum

## Children enrolled in Welcome Baby are screened at a much higher rate for developmental delays

Welcome Baby partners with more intensive, longer-term home visiting programs and makes warm hand-offs for families who have higher needs. By referring patients to Welcome Baby, you can be assured they'll get the best support.
