

## Welcome Baby Program

### Prenatal Service Consent and Agreement to Share Information

Welcome Baby is a universal home visitation program that provides supportive services to all pregnant and postpartum women giving birth at participating hospitals throughout Los Angeles County. The goals of the program are to promote the overall health and wellness during pregnancy and the first year of life, to enhance the capacity of parents to nurture and care for their young children and to strengthen existing community networks of services and foster community relationships. Services are delivered in the form of hospital visits, home visits and telephone calls.
